

Congress of the United States
Washington, DC 20515

September 15, 2017

The Honorable Mitch McConnell
Senate Majority Leader
United States Senate
United States Capitol Building, Room S-230
Washington, DC 20510

Dear Leader McConnell,

We, the undersigned Republican freshman members of Congress, write to respectfully urge the Senate to repeal Obamacare. The American people gave our party control of the White House and the Congress based in part on our promise to repeal Obamacare and bring much-needed reform to our health care system.

The majority of Americans, the middle and working-class families that form the backbone of this country, spoke in November; and we heard their voices loud and clear. They are tired of top-down, government-mandated solutions to our healthcare crisis. They are being crushed by the uncontrollable increase in deductibles and premiums, and they want the Congress to make meaningful reforms to healthcare.

Obamacare has failed, and repealing it is the lynchpin to successfully advancing our conservative agenda. It is not just the key to achieving the first meaningful tax reform since the Reagan Administration, nor simply the key to the success of this Congress, it is the key to assuring the constitutionally-centered government that we all came to Washington to restore.

We gave our word to our constituents that we would fight for these principles. Giving up on that promise is not just a political failure, but a moral one as well. The American people expect results, and, moreover, they deserve them. Wherever we can, we must remove the failed government experiment in health care from our government, and act in accordance with the wishes of the people that sent us to Washington. Therefore, we urge the Senate to persist in repealing Obamacare, restoring market forces, and reinstating patient-centered care.

Sincerely,

Jodey C. Arrington
